

# Massena Figure Skating Club

**Welcomes You to Skating 21-22 !!**

**Let's Get You Started!**

**Both Hockey and Figure Skates are OK!**

**Good Quality!**

- Your skates should not be able to fold up, roll down, or squeeze together
- NO double runners, they can't perform the elements we will be teaching.

**Good Fit!**

- 1 Pencil Rule—push foot forward in skate, 1 Pencil should fit between heel and back of skate (slightly more if foot is still growing / slightly less if not)
- Skate Shops have qualified people who can fit you and recommend quality equipment at reasonable prices.

**Taking Care of them!**

- Skates don't come sharpened. Have them sharpened by a knowledgeable skate sharpener! They will need to be sharpened at least a few times throughout the season.
- Use Skate guards when walking off ice—dirt acts like sandpaper. *Put your name on your skate guards!*
- Dry blades and skates with cloth, store with soakers on and bag open to the air.
